Real Analysis (4th Edition) by Royden and Fitzpatrick! Real Analysis (4th Edition) by Royden and Fitzpatrick. Real Analysis (Classic Version) (4th Edition) (Pearson ... Real Analysis, 4th Edition, covers the basic material that every graduate student should know in the classical theory of functions of a real variable, measure and integration theory, and some of the more important and elementary topics in general topology and normed linear space theory. This text assumes a general background in undergraduate. Real Analysis by H.L. Royden This, together with Rudin's "Real Analysis", is one of the standard texts on the subject. I personally like Royden a little more -- it has a slightly more conversational tone (but not overly so), and it covers more functional analysis than Rudin does.

Royden & Fitzpatrick, Real Analysis | Pearson This text is designed for graduate-level courses in real analysis. Real Analysis, Fourth Edition, covers the basic material that every graduate student should know in the classical theory of functions of a real variable, measure and integration theory, and some of the more important and elementary.
